AutoCAD 2006 Installation Instructions

1. To install AutoCAD 2006, insert the AutoCAD 2006 CD into your CD drive. When the AutoCAD 2006 installation window appears, click on **Stand-Alone Installation**.

2. On the next window, click on **Install** under Step 2.

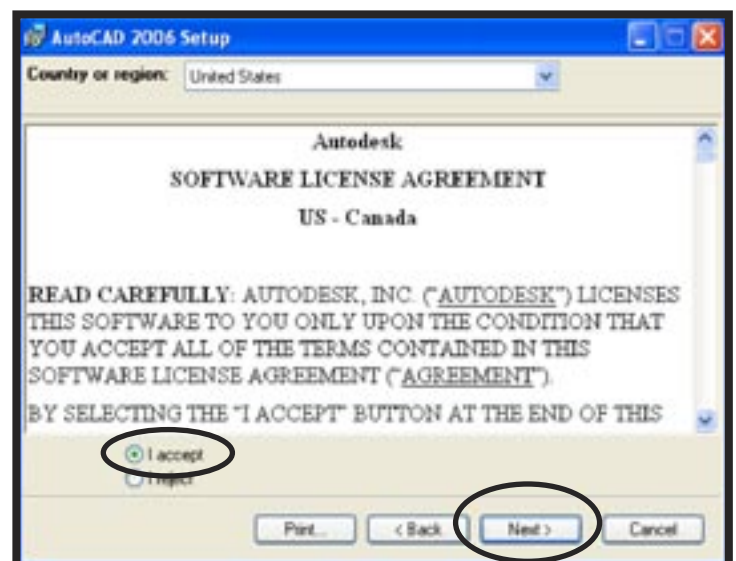

3. On this window, click **OK** so AutoCAD can install some required support components. Once the components are installed, AutoCAD 2006 installation will begin.

4. On the **Welcome to the AutoCAD 2006 Installation Wizard** dialog box, click **Next**.

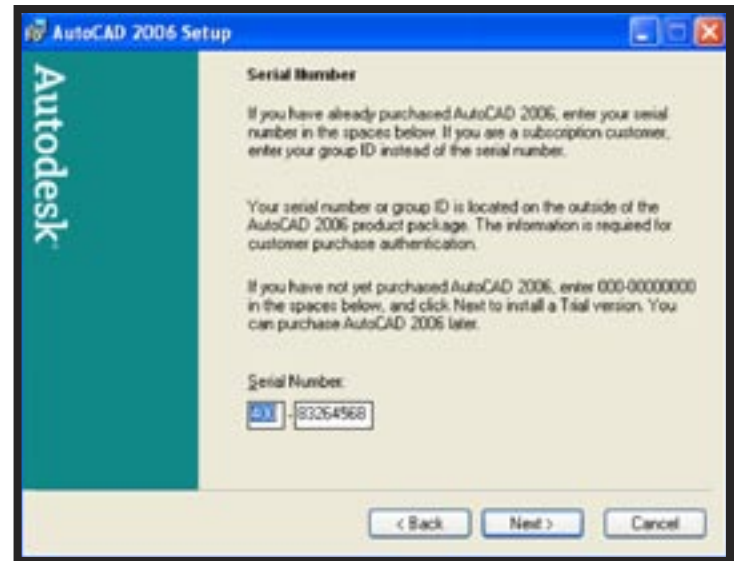

5. On the **Software License Agreement** dialog box, make sure **I accept** is selected and then click **Next**.

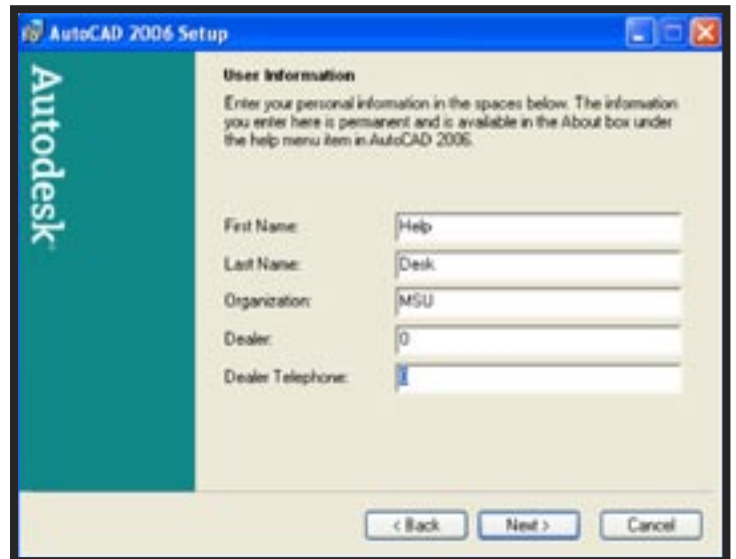

User Services

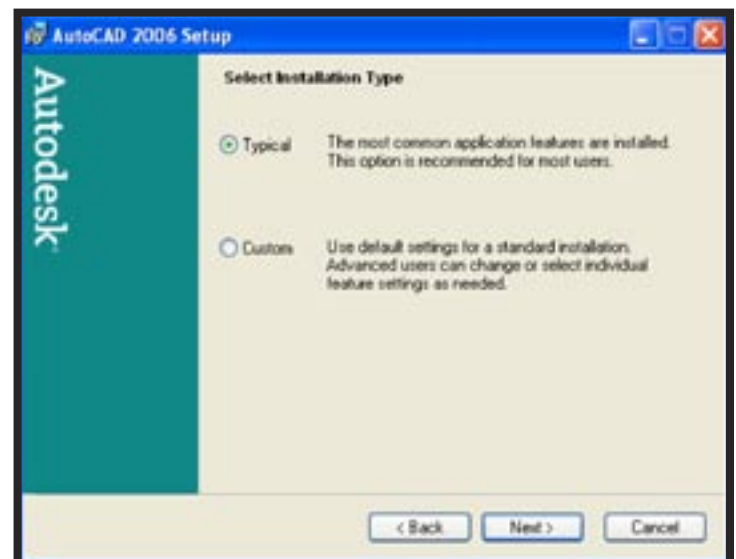

6. On the **Serial Number** dialog box, type the Serial Number in the blank and then click **Next**.

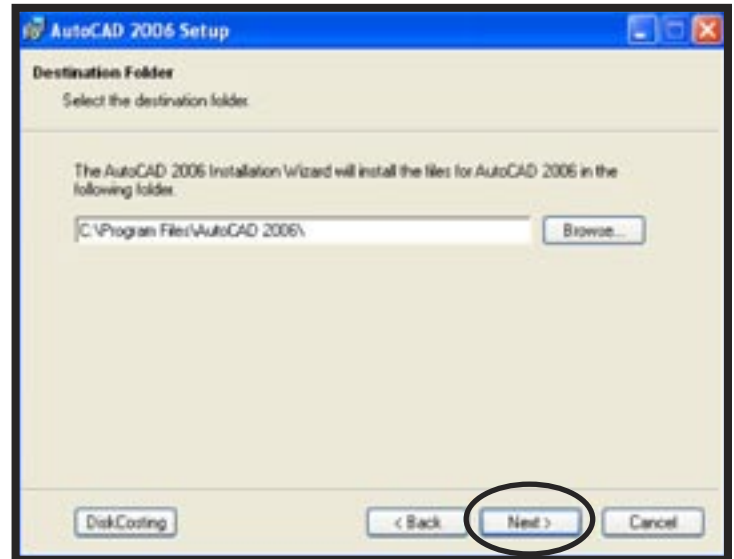

7. On the **User Information** dialog box, click **Next**.

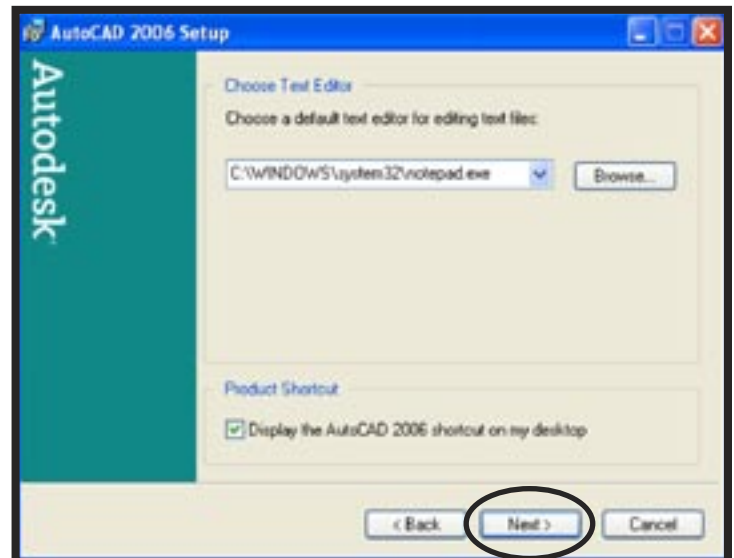

8. On the **Select Installation Type** dialog box, select **Typical** and then click **Next**.

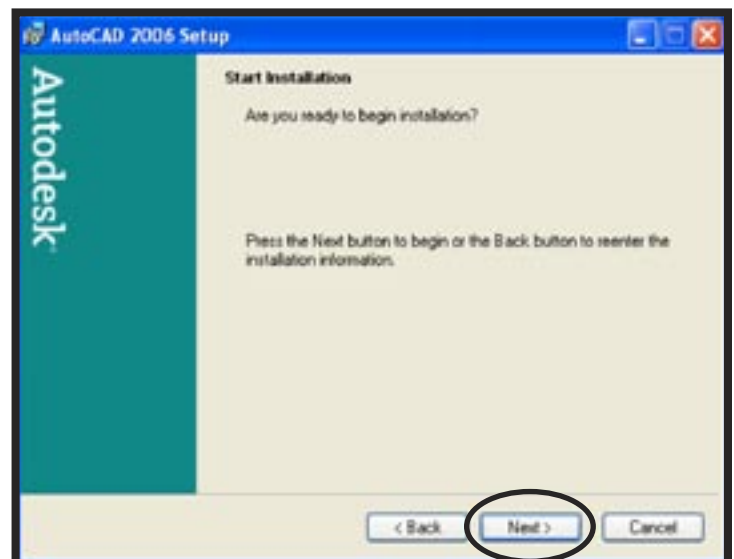

10. On the **Destination Folder** dialog box, click **Next**.

11. On the **Choose Text Editor** dialog box, click **Next**.

12. On the **Start Installation** dialog box, click **Next** to begin installation.

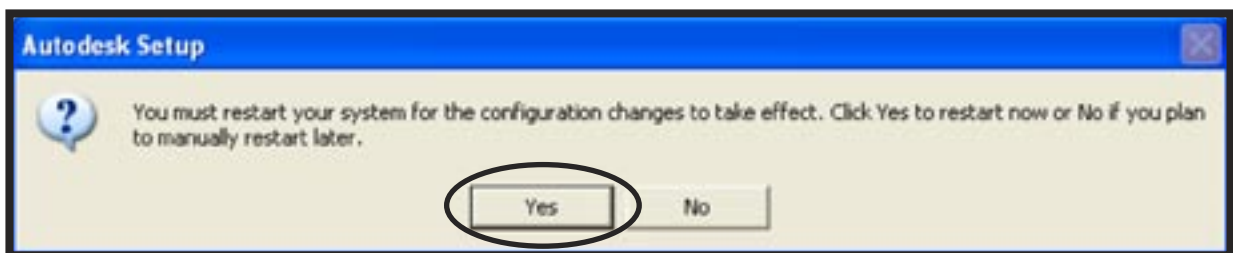

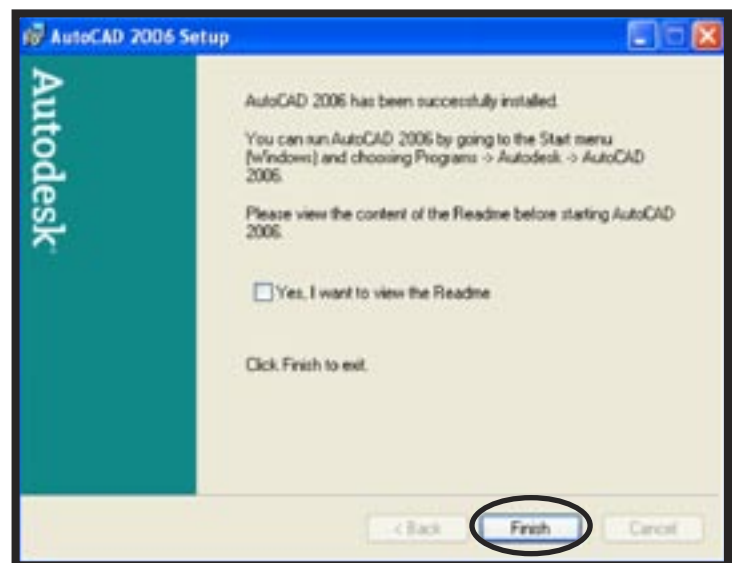

User Services

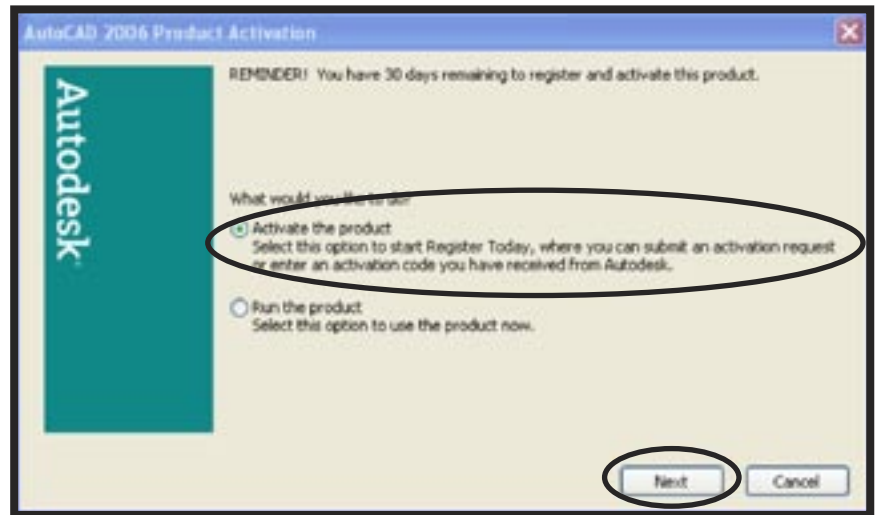

13. You should now see **AutoCAD 2006** being installed.

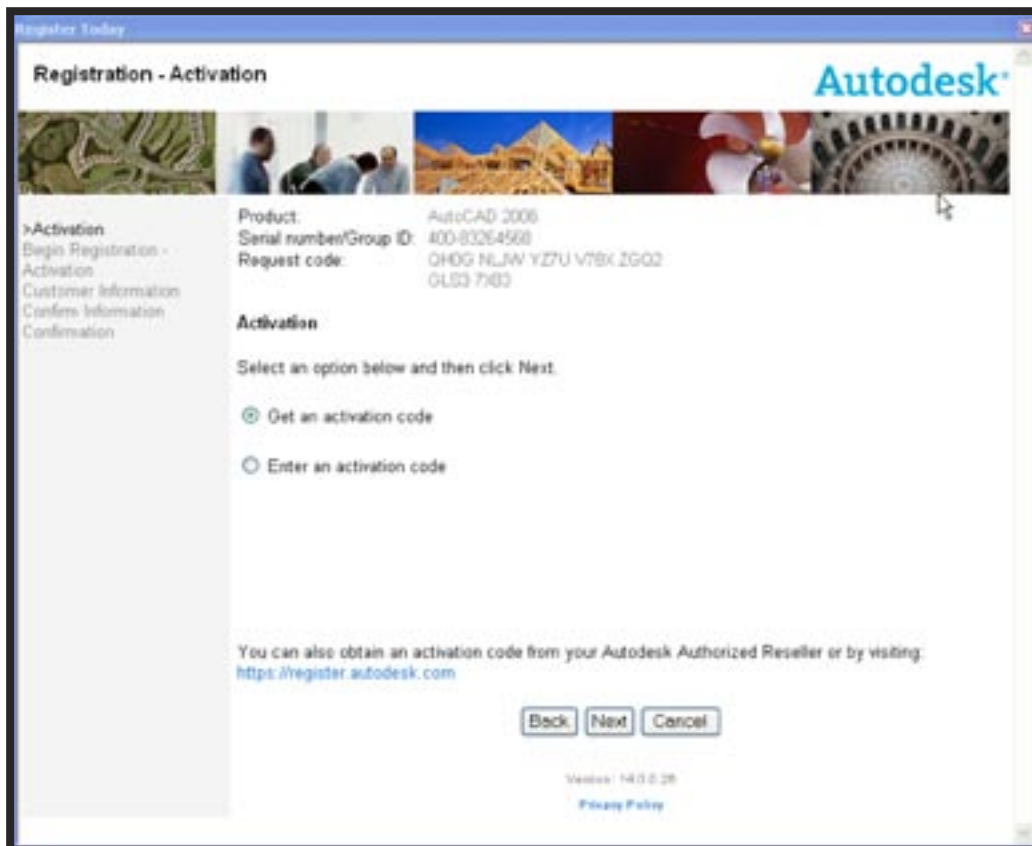

14. When AutoCAD 2006 has finished installation, click **Finish**. You will now be prompted to restart your computer. After your computer is restarted, AutoCAD 2006 will be activated.

15. Once your system has been restarted, double click on the **AutoCAD 2006 icon** on your desktop to launch AutoCAD. You will be prompted to register and activate AutoCAD. Select **Activate the product** and then click **Next**.

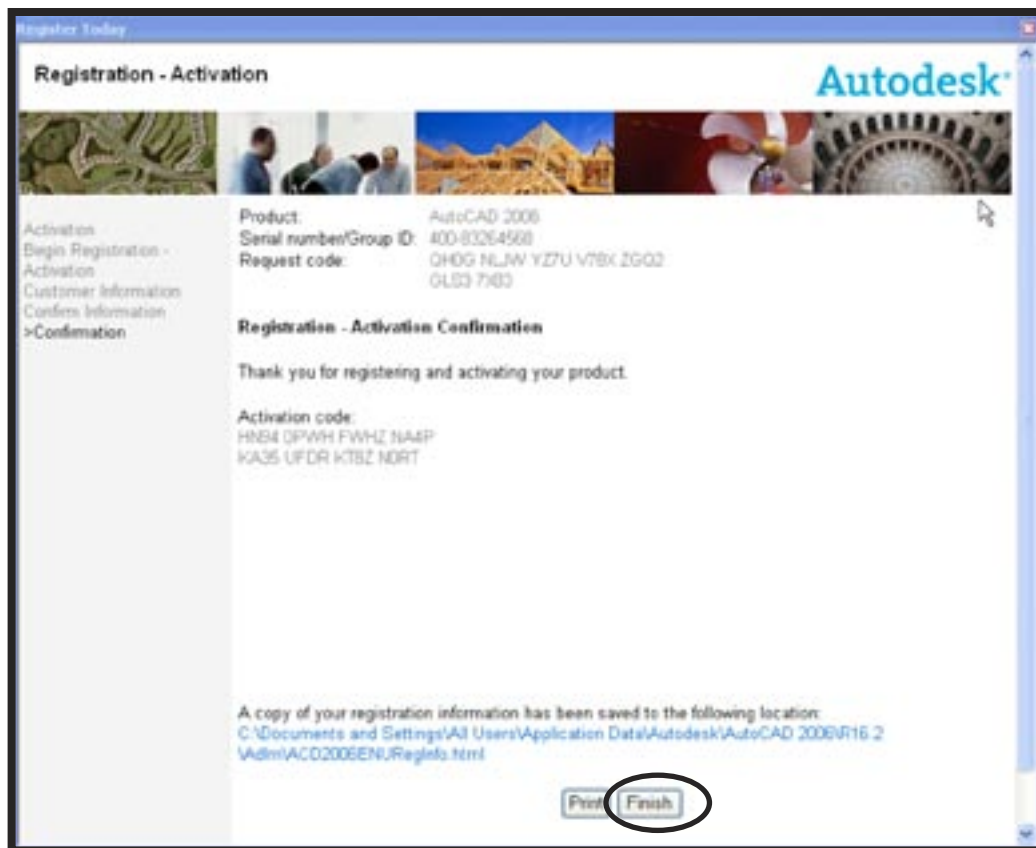

NOTE: You will need an active internet connection in order to activate AutoCAD.

16. On the **Registration - Activation** dialog box, select **Get an activation code** and then click **Next**.

17. Once AutoCAD has been registered, you will see the message **Registration - Activation Confirmation: Thank you for registering and activating your product.** At this window, click on **Finish**. You have successfully installed AutoCAD 2006.
