

eduroam Wireless Windows 8.1 Configuration

This document contains step-by-step instructions on how to configure the MSU wireless network, eduroam using Windows 8.1. Once your laptop is configured, you can log in to any institution's eduroam wireless using your NetID and NetPassword.

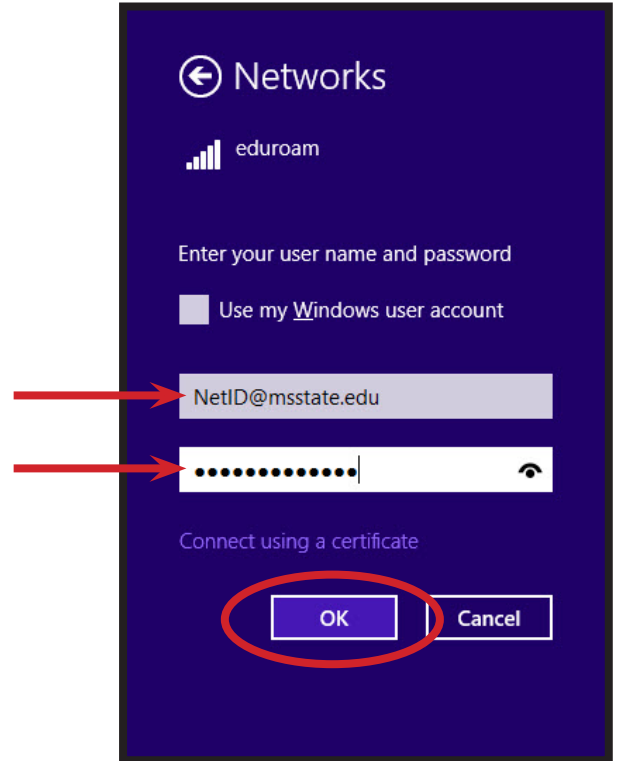

1. To configure Windows 8.1 for **eduroam**, select **Networks** to view all available wireless connections.

2. Select **eduroam** from the **Wi-Fi** list and select the box next to **Connect automatically**. Click **Connect**.

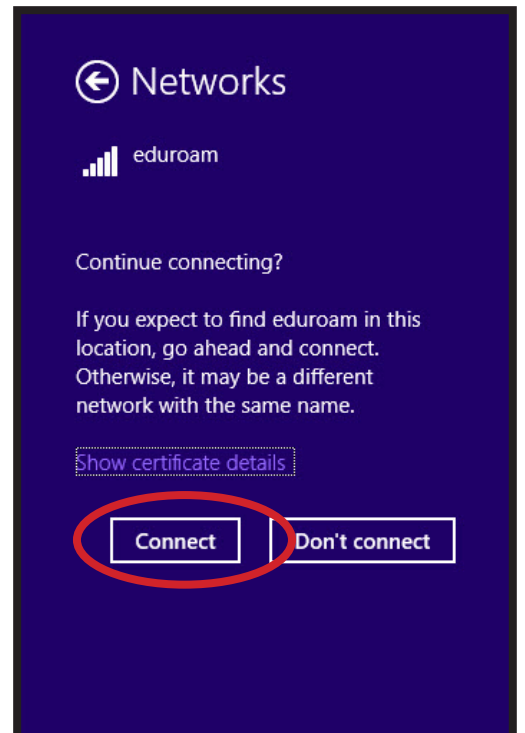

3. Enter your *netid@msstate.edu* email address in the **user name field** and your **NetPassword** in the **password field**. Click **OK**.

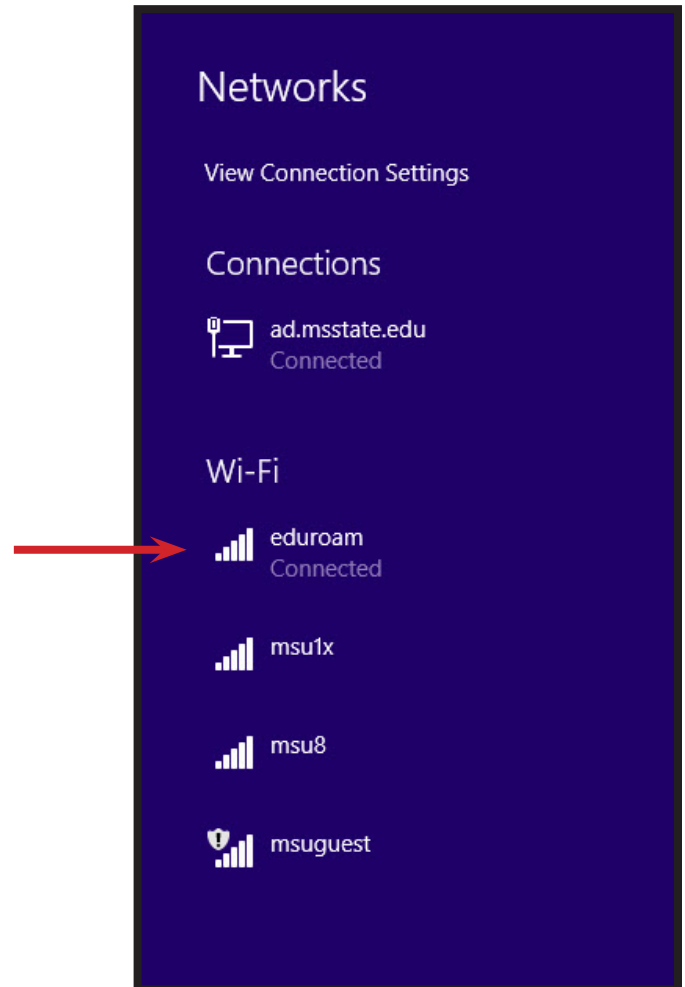

4. Select **Connect**.

5. You are now connected to **eduroam!**
