

Firefox 21+ (Mac) Clearing Cache and Cookies

This document explains how to clear the cache and cookies from Mozilla Firefox 21+.

1. In the menu bar, click the **History** dropdown menu and choose **Clear Recent History...**

2. In the **Clear All History** window, click the dropdown menu next to **Time range to clear:** and select **Everything**. Under the **Details** heading, check **Cookies** and **Cache**. Click **Clear Now**. The progress wheel may spin for a few minutes depending on the amount of data being deleted. Once it stops, the process is complete.
