

Mathematica 9.0.1 Download and Installation

1. To download **Mathematica 9.0.1**, go to www.its.msstate.edu/software/downloads and choose the **Student Use** link for Mathematica. You may also access the downloads from the ITS web site at its.msstate.edu and select **Downloads** in the **Navigation Bar**.

2. Select the correct platform for your computer. Choose between Windows, Mac OSX, or Linux.
3. Click the **Download**.
4. You will be prompted to enter your **NetID** and **NetPassword**.
5. Click the **click here** link to download the **Mathematica installer**.

You **must register** at [Wolfram's website](http://www.wolfram.com) to receive your activation key that will be needed after installation. Please make sure to register using your netid@msstate.edu e-mail address.
