Installation Instructions for SPSS 23 for Mac

To install SPSS 23 for Mac, insert and open the SPSS 23 flash drive and open either the 32-bit or 64-bit folder (depending on your system configuration). If you downloaded SPSS 23 from the ITS website, open the zip folder.

1. To install SPSS 23 for OSX, insert the SPSS 23 flash drive, open the Mac OSX folder, and double click the SPSS_Statistics_23_mac_.dmg. A new window should open. Double click the SPSS_Statistics_Installer.

2. In the Software Update window, click Install. (If you already have Java 6 installed, you may or may not see this window).

If you do not see this window, please skip to step 5.
3. In the License Agreement window, click **Agree**.

4. In the Software Update window, click **OK**.
5. Type your Mac OS X Username and Password and click **Install Helper** to begin installation of SPSS 23.

6. Click **OK** to continue the installation.
7. In the **Introduction** window, click **Next** to continue the installation.

8. In the **License Type** window, select the radio button next to **Authorized user license**, and click **Next**.
9. In the **Software License Agreement** window, click the radio button next to **I accept the terms in the license agreement**. Click **Next**.

10. In the **Customer Information** window, enter your information and then click **Next**.
11. In the **Help Language** window, click **Next**. (English is installed automatically. If you need another language for Help, you can select it.)

13. In the first **License Agreement** window, click the radio button next to **I accept the terms of the license agreement** and click **Next**.

14. In the second **License Agreement** window, click the radio button next to **I accept the terms of the license agreement** and click **Next**.
15. In the **Choose Install Folder** window, click **Next**.

![Choose Install Folder window with Next button highlighted](image1)

16. In the **Pre-Installation Summary** window, click **Install**.

![Pre-Installation Summary window with Install button highlighted](image2)
17. You will see SPSS 23 installation progress.

18. In the License window, click Done.
19. To launch the License Authorization Wizard, open Finder and click the following: Applications > IBM > SPSS > Statistics > 23 and double-click on the SPSS Statistics License Authorization Wizard.

20. In the License Status window, click Next.
21. In the **Product Authorization** window, select the radio button next to **License my product now** and click Next.

![Product Authorization Window]

22. Enter the **authorization code** for SPSS 23. The code is located on the flash drive in a MS Word document. If you downloaded SPSS from the ITS website, the code can be found in the window you received the download link for SPSS 23. **You will need to be connected to the Internet in order to authorize the SPSS license.** Click Next.

![Enter Codes Window]
23. In the Internet Authorization Status window, when you see Authorization succeeded, you can click Next.

![Internet Authorization Status Window]

24. In the **Licensing Completed** window, click **Finish**. SPSS 23 should now be installed.
