

## Safari 8.0+ (Mac) Clearing Cache and Cookies

This document explains how to clear the cache and cookies in Safari for Windows.

1. Click the **Safari** dropdown menu in the upper left portion of the screen and select **Preferences**.

2. In the window that appears, select the **Privacy** tab. Click the **Remove All Website Data...** button.

3. Click the **Remove Now** button in the pop up window.
